

VICE-PRESIDENT STEPHENS ON THE QUESTION OF THE DAY.—We publish to-day a full report of Mr. Alexander H. Stephens' Savannah speech, and as it is an official declaration of the policy of the Southern Confederacy, it should be attentively read. Mr. Stephens opens with an analysis and defence of the new constitution, recapitulating the principal changes made by it, and proving very conclusively that it is better than the old one. He makes a number of good points in the matter of the tariff, and demolishes the fallacy through which the rest of the United States have been taxed to enrich New England manufacturers and Pennsylvania iron mongers. Mr. Stephens does not hesitate to acknowledge that the new government has slavery for its foundation, and claims that the theory of the equality of races is untenable. Slavery, he declares, is the normal condition of the negro, and the new constitution is based that principle. Mr. Stephens believes that the civilized world will recognize the right of the Southern people to organize their government upon this principle. Referring to the border States, he believed that at no very distant day they would come into the Southern Confederacy. If they should conclude to stay out, the cotton States can get along very comfortably alone. Mr. Stephens looks forward to the time when the great West will separate from the Eastern and Middle States, and cast its lot with the South. With such odious legislation as that which gave us the Morrill tariff, and with the establishment of free trade at the South, it is not by any means impossible that this prophecy may be realized in our day. On the whole, Mr. Stephens' speech is a statesmanlike exposition of the views of the moderate Southern leaders. Shall we have an answer to it from Washington? —New York Herald.

CHARLESTON ITEMS.—Our Charleston exchanges announce the loss of the brig Benguela, of Stockton, Maine. No lives lost.

Hon. Louis T. Wigfall was expected to reach Charleston yesterday.

The Charleston Courier gives us the two following:

THE CHARLESTON RIFLE CANNON.—We perceive that Major J. A. Wagner's shell, ball and sabot, intended for his rifle cannon, are already cast, the gun being yet unfinished. Major Wagner proposes, in the meantime, to try his improved missiles with a smooth-bore piece, the result of which our readers shall be informed.

A VENERABLE CHAIR.—A patriotic lady of this city, on Friday last, presented, through Colonel T. Y. Simons, to the President of the Convention, a high-backed mahogany chair, which has attained the venerable age of 165 years. It was given to the President to sit in during the session of the Convention.

THE MERCURY SAYS: THE FLOATING BATTERY.—The flag of the Confederate States will be flung to the breeze from the floating battery, at ten o'clock this morning. The proportions of the flag are twenty by twelve feet, and will be raised to the height of sixty feet. An oration suitable to the occasion will be delivered. Refreshments have been generously provided.

SOUTHERN MANUFACTURES.—We are informed from a reliable source that numerous companies are now being organized within the precincts of the Confederate States with a view of developing their water power resources and the establishment of manufacturing in the new republic for the fabrication of those kinds of goods usually furnished by the New England States, especially the States of Connecticut and Massachusetts. It will be inferred, therefore, from this statement that the Southrons are determined to be independent in a manufacturing as well as political point of view of the North.

The newspapers of the South come to hand with their columns filled with displayed advertisements, calling upon their readers to patronize "home manufactures," and, as far as we can learn, this little admonition is not being disregarded. —N. Y. Herald.

SECESSION AT THE NORTH.—A letter from New York declares that the most conclusive proof can be produced that a powerful and numerous revolutionary organization exists in existence in that city, the object of which is to separate the city and port of New York from the Union and from the State, in order to make it a free and independent port. A printed programme is in circulation, containing four thousand names already in favor of the project.

The American Minister to France, Mr. Faulkner, who has resigned, has taken his passage for the United States for the first week in April. His family remain awhile longer in Paris.

Special Notices.

The friends of Col. D. A. LEADBETTER respectfully announce him a candidate for Colonel of the Volunteer Regiment now forming in this Brigade.

Col. E. P. Jones. The remaining Volunteer Companies in this Brigade will soon be organized into a Regiment. We most respectfully suggest, that Col. Jones is the proper man for the position of Colonel, and we trust he will be elected without opposition.

Religious Notice. The following resolution was passed at the late session of the Conference of M. E. Church South, held in Columbia.

Resolved, That the first Friday in April and in September next, be observed as days of fasting and prayer: to Almighty God for a general revival of religion, within the bounds of the Conference, for his blessings on our literary, institutions, and the various enterprises of the Church, and that our people be requested to assemble on those days, at their respective places of worship.

In accordance with the above, I beg all members of the Methodist Church in the Anderson Circuit to observe strictly the 1st Friday in April next as a day of fasting and prayer. There will be service in the Methodist Church in this place on that day. Our friends are invited to attend.

W. S. SHAW, T. C.

Bank of State of South Carolina.

THE Legislature having, at its late session, authorized the issue of Bonds to the amount of \$875,000, bearing an interest of seven per cent., for the purpose of providing the funds required to sustain the State in the act of resuming her rights of sovereignty, this Bank is now prepared to dispose of the Bonds. They are issued in sums of \$50, \$100 and \$500. An opportunity is thus afforded every citizen to make a secure and profitable investment, while contributing aid to the cause in which the State is engaged. With a view of enabling citizens in any part of the State to share in the Loan, the Clerks of the Courts of the several Districts have been required to open books of subscription for the Stock. Suitable arrangements will be made for furnishing the Bonds on the receipt of the money, as an early day after each subscription has been made. Engagements for the purchase of Bonds may be made at the Bank, or any of its Branches. It is probable that, at the next session of the Legislature, those parties who desire it may have their Bonds converted into Stock.

HAS just received a large and well selected Stock of

GROCERIES,

THE GLOBE.

THE OFFICIAL PAPER OF CONGRESS.

I PUBLISH now my annual Prospectus of THE DAILY GLOBE, and the CONGRESSIONAL GLOBE, to remain subscribers, and inform those who may desire to subscribe, that Congress will meet on the 1st Monday of next December, when I shall resume publishing the above-named paper.

They have been published so long, that most people know their character, and therefore I deem it needless to give a minute account of the kind of matter they will contain.

THE DAILY GLOBE will contain a report of the Debates in both branches of Congress as taken down by reporters, equal, at least to any corps of short-hand-writers in this, or in any other country. A majority of them will each, be able to report, verbatim, ten thousand words an hour, while the average number of words spoken by fluent speakers rarely exceeds seven thousand five hundred words an hour. When the debates of a day do not make more than forty-five columns, they will appear in The Daily Globe of the next morning, which will contain, also, the news of the day, together with such editorial articles as may be suggested by passing events.

THE CONGRESSIONAL GLOBE AND APPENDIX will contain a report of all the Debates in Congress, revised by the speakers, the Messages of the President of the United States, the Annual Report of the Heads of the Executive Departments, the Laws passed during the sessions, and copious indexes to all. They will be printed on a double royal sheet, in book form, royal quarto size, each number containing sixteen pages. The whole will make, it is believed, at least 2,000 pages. This is acknowledged to be the cheapest work ever sold in any country, whether a reprint or printed from manuscript copy, taking for date the average number of words it contains.

The coming session will, without doubt, be an unusually interesting one, because the debates will, in a great measure, be upon the policy of the President elect, and the Globe will be, as it has been for many years past, the only source from which full debates of Congress can be obtained.

THE CONGRESSIONAL GLOBE AND APPENDIX pass free through the mails of the United States, as will be seen by reading the following Joint Resolution passed by Congress the 6th of August, 1852:

Joint Resolution providing for the distribution of the Laws of Congress and the Debates thereon.

With a view to the cheap circulation of the laws of Congress and the debates contributing to the true interpretation thereof, and to make free the communication between the representative and constituent bodies:

Be it Resolved by the Senate and House of Representatives of the United States of America in Congress Assembled, That from and after the present session of Congress, THE CONGRESSIONAL GLOBE AND APPENDIX, which contain the laws and the debates thereon, shall pass free through the mails so long as the same shall be published by order of Congress: Provided, That nothing herein shall be construed to authorize the circulation of the DAILY GLOBE free of postage.

APPROVED, August 6, 1852.

TERMS: For a copy of THE DAILY GLOBE, for four months \$3 00

For 1 copy of THE CONGRESSIONAL GLOBE AND APPENDIX, during the session 3 00

For 2 copies ditto, when ordered at the same time 5 00

No attention will be paid to any order unless the money accompany it.

Bank notes, current in the section of the country where a subscriber resides, will be received at par. The whole or any part of a subscription may be remitted in postage stamps, which is preferable to any currency, except gold or silver.
